							discuss RN delegation	

the law almost always states	
specialized tasks cannot be	
delegated to UAP's.	
The delegation of specialized	
nursing tasks is usually	
conveyed in laws discussing	
LPN's scope of practice	
which states they work under	
the supervision of RN (or	
does tasks delegated to them	
by RNs) and then lists	
specialized nursing tasks they	
conduct.	
conduct.	
How do you guys feel about	
using this CN?	
AK-I'm in favor of keeping it	
within those states that	
explicitly permit RN's to	
delegate specialized nursing	
functions to LPN's but not	
UAP's.	
I did this because I recall we	
agreed to always CN those	
prohibited activities that	
could generally be delegated	
to one professional but not	
the other. I could also see us	
adding a protocol note as one	
reasonably assume an RN	
could delegate specialized	
nursing functions to other	
nurses and not non-nurses	
with	
less education and training then	

			them.
